

We are writing to you directly with an update on what we're doing to prioritise your health and safety when you come into the Albany studio here at **Paint the Earth**.

We have always taken great pride in keeping our studio clean and well-run for our creative customers. To make sure we can keep on serving you to the standard you love and expect, we have put in place an updated cleaning and sanitising plan for the studio to ensure it is cleaned with extra care. **All** tables, chairs and equipment are cleaned after **each** use using antibacterial spray, liquid and wipes. We also have an aromatherapy diffuser with antibacterial essential oils running in the studio

Like other businesses tackling this issue, we're being guided by the [Ministry of Health](#), which recommends **regular cleaning** as one of the most important preventive measures we can take.

As circumstances continue to develop, one thing will remain the same: We will make our decisions with the health, safety and wellbeing of our customers, team members and communities as our highest priority.

We're hard at work to ensure our studio remains open so you can continue to get creative with us at Paint the Earth. We look forward to seeing you all in the studio - with your family and friends, some "me time" or if you are thinking of having a party with us!

From the team at Paint the Earth
